

# March 2007 Kudos

Peter

Planted pine seedlings along side of the main road passing Trailer Hill  
Assisting Brian in digging a trench for the electric run to Chicken ranch

John

Installed screen door catches to keep the doors closed during winds  
Locating and checking fire extinguisher charges  
Assisted draining and washing out the ice bin  
Removing excess phone cable around the TCC trailer and re-strung the telephone cable to

Dale

Replaced the ice machine filter which cracked and broke due to the mid 20 temperatures  
Drained and washed out the ice bin  
Replacing ripped out plastic next to the kitchen front door  
Installed plastic curtain in kitchen back door for better winterization of kitchen  
Planted roughly 40 trees

Brian

Rented a Ditch Witch to dig trenches for electric runs to the Chicken Ranch, Ray and Frank's new cabin and to the utility pole across from the restroom above the trash ditch for the upcoming WiFi installation

Hal and Lobo

Meeting the technician to discuss the best location to install the WiFi equipment. The utility pole across from the restroom above the trash ditch was the best place.

Dan Bullion and Lee

Removed another tree stump in the road going up Trailer Hill

Peter and Eric Miller of HOT Bears

Removing the top of the TCC deck, securing the frame and replacing the top with decking.  
Replacing top step and realigning the stairs to the TCC trailer

Tom Simmons

Running electricity to Ray and Franks cabin and to the utility pole in preparation for the WiFi installation

Frank

Cleaning out the fire pit

Ed Burleson

Raking leaves around the rock wall and planting trees

Ray

Thank you for supplying a 9v battery for a smoke detector in the Bunkhouse

Lee and Lobo

Assisted Tom running power from restroom to utility pole for WiFi installation.
