

September 2007 Kudos

I would like to thank the following people for their help at the August Activity Weekend:

To John S for cleaning out the Hazmat shed

To Brian for cutting up the tree that fell across the road into the Landsite

To Brian, John and Dale for cutting down the two trees in order to straighten out the road entrance going to the Compound.

To Dale for cleaning out all of the rocks and concrete out of the ditches on both sides of the Compound road allowing better water flow

To Dan and David for trimming around the mailbox and entrance to the Landsite

To Dale for trimming the path going up to Buzzards Peak

To Josh with TOL for assisting trimming the path going up to Buzzards Peak

September Activity Weekend

This next Activity weekend will also be hosting our biannual PWA campout.

It has been discovered that the anchor for the guide wire to the power pole next to Lee and Lobo's trailer has been pulled through the ground roughly a foot. This has allowed the power line to sag at a very low level. We need to address this issue this weekend to avoid any future power outages.

Looking for volunteers to take on the following projects

Add additional shelving in the Hazmat shed to increase storage space

The lawn mower shed is in need of some major work involving:

- Replacing rotted out roof beams and side walls
- Replacing the leaking roof
- Install flooring to get the lawn equipment off the ground out of the mud
- Dig a trench in front of shed door to route rain water around the shed. Will need to install a ramp over the trench
- Repair or replace the doors with a sliding door(I have the door & opening dimensions)

Requested items to be purchased or donated:

If anyone would be kind enough to donate any of the following items, it would be appreciated:

Rental of a stump grinder to remove tree stumps

Old culverts from street repair projects to be used at locations around the Landsite

Garden leaf rakes

Thanks and see everyone at Activity Weekend!
