

## Kudos for June 2009

Thanks to all that came out to help out. It was very hot during the day and the pool came in handy for those that overheated.

Thanks:

- To the crew that worked on cleaning the top of buzzard peak and both the walking trail and the road to the top. Daddy Montgomery, Guy, David, Richard and Jerry.
- Tim, Dan and Ken for going down earlier in the week to repaint the metal benches.
- Lobo, Jim and boy jim for putting the small a/c unit in the office of the bunkhouse to help keep equipment cool.
- TOL for going through the pole barn and pulling all the old staples out where we have all put things up with a staple gun.
- TOL for cleaning the dressing room on the back of the pole barn.
- Ken for taking the pole saw along the road and trimming tree limbs up high so a RV or travel trailer would not rub the trees and maybe damage the a/c unit or vents.
- Ken for cutting the tree limbs back away from the bunk house.
- Ken for placing the drain hose from the ice machine into the main drain pipe to help keep mosquitoes from around the kitchen.
- Ed B. brought in a truck load of cut up wood for the wood pile.
- Mark for his pick up of the trash and cigarette butts through out the camp grounds.
