

Kudos for May 2009

Thanks to all that helped out. There was a lot of work that went on behind the scenes this month trying to get things ready for the LoneStar, Trinity River Bears and TOL runs. I am sure there were things that I have missed. If so please let me know and I will be glad to add you to the next list.

During the PWA weekend there was a load of gravel brought in. PWA campers moved all the tables and spread the gravel out by hand.

Part of the new compound was set up and lights hung and laid out.

Part of a Tree that had fallen at the beginning of the path to Buzzards' Peak was cut up.

With all the help that the PWA campers did in helping with cleaning up the camp grounds and with the man hours it saved TCC about \$650.00.

Thanks to the following:

- Roger w/HOT Bears put another coat of paint inside and out on the First Aid station
- Lee, Lobo, Dale, Guy and Brian spread 1,600 pounds of powdered concrete over the new gravel to help hold it in place and moved some around to the trail behind the showers
- Dan S. trimmed brush along the road between Ed's place and Registration
- Dale for taking a load of crushed cans to Rockdale
- Ray for defrosting the freezer in the kitchen
- Ray for bagging up ice and putting in freezer
- Ray and Frank for power washing the kitchen floor
- Ray for placing Rid-X in septic system
- Ray for placing tons of butt cans around the campground
- Ray for cleaning the shower, rest room, bunk house and TCC trailer
- Ray and Dan S for mowing
- Ray for cleaning the kitchen vents and stove area
- Baby Doll for making the signs for LoneStar to place at the end of the road
- Brian for repairing drain in sink outside the walk-in cooler
- Brian for repairing 2 of the commodes in the rest room
- Lobo donated some new kitchen towels
- Tim donated some new aluminum pans and kitchen towels
- Brian donated some new pot holders

Thanks to all those that contributed to the pot luck dinner at the May activity weekend and to TOL for the clean up afterwards.
