

Kudos for November 2009

(Work done in October)

Thanks to the following people for the work they did. Even though it was a meeting weekend the attendance was very light this weekend

Lee for having both of the propane tanks filled for the winter months

Corby for treating the septic system with Rid-X

Corby for checking some of the fire extinguishers

Roy, Frank, Guy, Mermaid, Morgyn and John C. for thinning out and spreading the river rock on the road going into the compound area. It really looks like we had another load brought in.

Ron D. and Lee for measuring the bunk house so we can purchase some new plywood to cover the floor

Lobo, Cougar, Mermaid, Morgyn and Dale for taking 3 loads of aluminum cans to Rockdale for recycle. The conference received \$145.00

Thanks to all those who contribute to the Saturday evening meal and the clean up. Of course we had more than enough to eat and it was very good.
