

Kudos for Feb 2010

Work done in Jan

The first big kudo needs to go to Steve Riegel for crawling under the restroom to fix a broken pipe. They first had to dig out a spot so he could get under the rest room, then had to grab him by his legs to pull him out when he was done.

Want to say thanks to Dale A. for going down early to check things out; going to get the supplies then started replacing the busted water pipes in the restroom and kitchen. Also thanks to Ron D. and Steve R. for helping Dale A. when they arrived.

Thanks to Dale A. for helping me turn off the water and draining all the water lines before we left on Sunday.

Thanks to John S. and PWA-HC for donating 3--50bls bags for winter Rye Grass and spreading it over the camping area.

Thanks to David and Dan for cutting down the dead tree beside the TCC trailer and going up the drive trail to Buzzard peak and cutting down some trees there also.

Thanks to Tom S. for his continuous electrical work on the new system in the camping area.

Thanks to Mark S. for going around and picking up the litter that was spread all over the camp ground.

We had a great dinner Saturday night after most everyone left. Thanks To Tom S. and Mark S. for the Brisket that was made into a roast, Dale for the salad and Baby Doll for the desert.
