

# Things to do during the November 09 Activity

Shut off water to Compound area and next to pool then drain water lines

Disconnect and drain all hoses from water faucets.  
(Campers, sink at walk-in, sink at restroom)

Install faucet muffs on exterior faucets

Install tarps around kitchen and pole barn

Install kitchen doors

Check bunkhouse heater filter and light pilot

Setup heaters in:

- Showers
- Restroom
- By the ice machine
- 

Dispose of out of date items in walk in cooler

Clean out Fridge and freezer in kitchen

Clean filter on back of Ice machine

Clean A/C filter in restroom, shower and drag room

Remove leaves from around water storage tanks

Locate and inspect all fire extinguishers. Please list where they are and what the charging status is

Relocate one water line in compound area

Cut down trees in the area where the new septic system is going in

Remove cut down brush to the fire pit area

Remove old A/C unit from bunk house and install the new one
