

June Maintenance Weekend To do list.

Because of the heat this time of year there should only be light work done.

I don't want anyone to get too hot.

Please drink lots and lots of water and Gatorade

If someone will bring their pressure washer, we need to:

- Power wash grease vents over stove:
- Power wash the kitchen floor:
- Clean air conditioners and filters in:
 - Shower room
 - Bunkhouse
 - TCC trailers
 - Pole Barn dressing room
 - Restroom

Dale is to reconnect the water line to the Celebration Deck area so the plants can be watered real well.

Need to water all flower beds and crepe myrtles

Take down old wood sling frame in the tenting area

Re-work the tent area Malibu light

Re-work all the path lights

Take wood frame by restroom, move to the front of the storage ditch. (Will need to take 1 of the 4X8 OSB boards

and attach to the front.) Try to hide some of the junk in the pit so it can't be seen from the road.

Move the lawn furniture by the PWA shed and take to the Pool area and set it up.

There may be some mowing and weed trimming that needs to be done. (please try to do this early in the morning or late in the evening.

We are in Our HOTTEST part of the year. Please don't try to do any work during the heat of the day. Go take a nap or get in the pool to stay cool.
